Dear Mr. Dracopoulos,

To you, the Board of Directors and all the forces at the Stavros Niarchos Foundation, we express our warmest congratulations for this monumental decision to distribute 130 million dollars to those in need of our brethren in Greece.

Regardless of the fact that the Foundation has the resources to offer such a large amount, it is the initiative for this action that collects the admiration and respect of the entire Greek American Community as it confirms the sensitivity and concern of the Foundation for the vulnerable and needy. It also indicates the visionary character of the Foundation, taking into account the future generations needs by investing in their education and training.

Since our foundation is also a beneficiary of your support, offered to our scholarship recipients, please allow us to feel proud for being associated with the Stavros Niarchos Foundation and celebrate with you the memory and the vision of its founder.

Sincerely,

Chris P. Tomaras
